

We have 4 courses which we will be offering in libraries during this year: 'Baby Sign', 'Toddler Talk', '2-4 Move Some More' and 'Storytime Fun'. Fine to promote these in the resources section. Please ask parents/carers to keep an eye on the Golearn! website and look out for posters promoting the courses at their local library.

Storytime Fun

5 sessions of 1 hour

This course is for parents/carers and children aged about 2-4 years.

Each week we will share one of the books shortlisted for the Booktrust Storytime Prize. Each session will include fun activities : singing, crafts and games.

The aims of the course are for parents/carers to:

- recognise the importance of reading aloud and feel confident to share books with their children
- confidently use library services and activities for families
- know how to support young children to develop their literacy skills.

Toddler Talk

5 sessions of 1 hour

This course is for parents/carers and children aged about 8 months – 2 years.

The course is about supporting very young children to develop speaking and listening skills. Each session will include themed songs, rhymes, a story and activities.

The aims of the course are for parents/carers to:

- know new rhymes and songs and feel confident to share these with their child
- know and use activities to support the development of early speaking and listening skills

space, visit the
GoLearn
website

Baby Sign

3 sessions of 1 hour

This course is for parents/carers and children aged about 6 months – 18 months.

You will learn about the history of Baby Sign, signs to start with your baby and how to persevere if it appears not to work.

The aims of the course are for parents/carers to:

- learn & demonstrate basic Baby Signs
- know how Baby Sign helps to develop early communication
- know how Baby Sign can reduce frustration for your baby.

2-4 - Move Some More

5 sessions of 1.5 hour

This course is for parents/carers and children aged 2-4 years.

You will learn about ways to help your child develop their speaking and listening skills, physical skills and how to become emotionally and socially resilient.

The aims of the course are for parents/carers to:

- know ways to support their child's wellbeing and help them become resilient
- know and use strategies to develop language and communication skills
- know and use activities to support their child's physical development
